Re: Eugene B Adkins Estate – Art Collection

Dear Gary,

The professionalism and services that you provided to assist the Trustees and the Trust Company of Oklahoma with security and other management services could not have been better. You were retained 10 days before the death of our client to assist us with the largest collection of southwest art owned by an individual in the United States. None of us knew the extent of the collection at that time. It later proved to be in the neighborhood of \$50 million including paintings, water colors, Indian jewelry, weaving, sculptures, baskets, and miscellaneous artifacts.

Each member of your staff proved to be a person of great integrity and highly qualified throughout the two year period. In each case, they performed in many areas in addition to their primary function of security such as assistance in moving the art.

The Trustees will never know how much assistance you provided in accomplishing an unbelievably large task with the tremendous amount of liability involved.

It was good fortune that I knew you and retained you for this project with complete support from the Foundation Trustees.

Feel free to use me as a reference anytime.

Sincerely,

Les Pierce
Senior Vice President
